

WEBSITE PROJECT AGREEMENT

Date: August 16, 2026

Prepared by: Will Kusch

Company: Relative Companies, Inc.

Project: Endo website buildout

PROJECT PRICE

The total project price is **\$1,500 USD**.

- **\$750 due upfront** before work begins

- **\$750 due upon completion** before the final website launch and project transfer

WHAT IS INCLUDED

Completion of the remaining website pages based on the approved landing-page design, responsive desktop and mobile implementation, reasonable copy adjustments, testing, deployment to the client's hosting account, connection of one domain, and transfer of the Git repository after final payment.

REVISIONS AND SCOPE

The price includes up to **two reasonable rounds of revisions** to the agreed website pages. Small adjustments such as copy edits, color tweaks, spacing, and similar details are no big deal and are included; they should simply be grouped into one combined feedback list for each round.

The revision limit gives both sides a clear finish line and prevents the project from turning into an open-ended cycle that could continue indefinitely. New pages, new features, major redesigns, additional revision rounds, or repeated changes to previously approved work are outside the \$1,500 project scope and will require separate written pricing before that extra work begins.

CLIENT MATERIALS AND TIMING

The client will provide needed copy, images, account access, and feedback in a timely manner. Delays in receiving these items may move the completion date. Relative Companies, Inc. is not responsible for delays caused by the client's hosting provider, domain provider, or other third-party services.

COMPLETION AND HANDOFF

The project is considered complete when the agreed pages are built and the included revision rounds are finished. The final balance is then due. The production launch, domain connection, and Git repository transfer will be completed after full payment is received and the client provides the required account access.

AGREEMENT

Payment of the \$750 upfront amount confirms the client's acceptance of this project scope, price, payment schedule, and revision terms. Any change to these terms must be agreed to in writing.
